## About GAEP

**Gulf Application Engineering and Packaging FZE (GAEP)** is a Free Zone Establishment company located in Jebel Ali Free Zone, Dubai, United Arab Emirates. It has been in operation since 1989. GAEP offers sales and after-sales support in the Middle East and West Africa Region for the brands we represent, backed by a team of highly skilled **engineers** and **product specialists**. Our main objective is to attain the highest level of customer satisfaction by building and maintaining long term business relationships with our valued customers.

GAEP is the appointed Exclusive Sales and Service representative of Nordson Adhesives, Nordson Finishing, Nordson Container, Nordson EFD, Nordson Asymtek, Nordson PPS and Nordson Xloy. Together with Nordson we also represents STS, HangOn, Ideal Line, GARD, Spilltech, Peters & Witte for the Middle East and West African Region.

Domino is one our esteemed products and we represent them exclusively in Saudi Arabia via SE-TECH.

To enhance our sales and after-sales support in Saudi Arabia, SERVICES TECHNOLOGIES ESTABLISHMENT (SE-TECH) handles the sales activities and GAEP ARABIA follows up the after-sales services.

GAEP operates in West African Market via SAFPACK, the regional office in Ivory Coast.

### Our Mission

We are a strong and reliable partner in the packaging, coating, precise dispensing and industrial printing technology business.

Our mission is to continuously optimize our customers' business through our world-class solutions, services and products.

We ensure the success of our company by constantly and consistently satisfying our customers and employees.

### Our Vision

Persistently enhance our services for future growth and development.

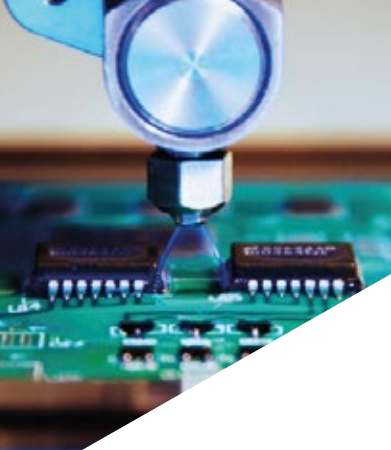

## What we offer

Answering to the needs of our customers is our priority. When it comes to technical service and support for your equipments, GAEP is second to none.

Our team of fully trained well experienced engineers and service technicians will always be available to assist you in any location. GAEP is competent in offering standard and customized solutions as per customer's requirements.

Our warehouse located in Dubai Jebel Ali Free Zone next to Jebel Ali Sea Port and Dubai World Central's Al Maktoum International Airport allows us to perform prompt supplies and deliveries of spare parts and systems to the Middle East and West African regions.

## Adhesive Dispensing Equipment

Nordson dispensing equipment applies adhesives, sealants and coatings in a variety of patterns to consumer and industrial products in packaging, product assembly and nonwovens applications. Our hot melt systems and glue applicators are made for precision, reliability and repeatability for a large number of applications.

## Nordson Non-Woven

Nordson's vast experience with nonwoven product production makes us uniquely qualified to support the high-speed converting of rolled goods for disposable hygiene products. Whether baby diapers, adult incontinence or feminine care products, Nordson application systems precisely deliver a wide variety of materials including:

- Lotions
- Hot melt adhesives
- Perfumes
- Specialty materials (waxes, etc.)

## Nordson Powder Coating

Nordson offers powder coating system from simple manual to sophisticated, programmable, automatic recovery systems, Nordson's powder coating application technology improves efficiency, flexibility and productivity for manufacturers worldwide.

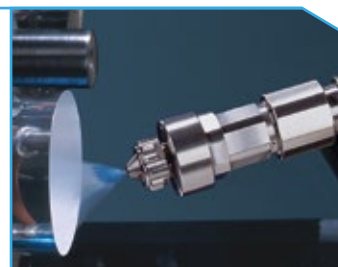

## Nordson Liquid Coating

Nordson is a market leader in providing precision dispensing equipment for liquid finishing worldwide. Nordson provides electrostatic and non-electrostatic spray systems to apply liquid paints and coatings to a wide range of parts.

## Nordson Container Coating

Nordson is the recognized leader in developing advanced coating, dispensing and curing systems used in the production of beverage and food containers. For more than 25 years, container manufacturers worldwide have relied on Nordson for custom-designed solutions to their production challenges.

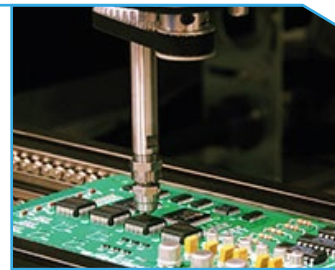

## Nordson Sealant Equipment

Dispensing equipment for adhesive, epoxy, silicone, urethane, oil, grease, sealant and more. The largest selection of precision dispense systems and valves for 1 and 2 component applications, for bonding, sealing, potting, casting, encapsulation, gasketing and more.

## Nordson Asymtek

Nordson Asymtek supplies fluid dispensing and PCB coating equipment that is supported by a global service network. Recognized for our innovative liquid dispensers and coating systems, we offer customer-inspired solutions in a range of industries.

## Nordson EFD

Nordson EFD is the world's leading precision fluid dispensing systems manufacturer. Nordson EFD Engineered Fluid Dispensing Systems are trusted for applying controlled amounts of the adhesives, sealants, lubricants and other assembly fluids increasing productivity for nearly every industrial manufacturing process.

## Nordson Polymer Processing Systems

Nordson polymer processing team leverages more than 200 years of collective corporate experience in the plastics industry to produce a full range of precision melt stream products — from screws and barrels to filtration systems, pumps, and valves for extrusion and injection molding — to the dies used to create film, sheet, coatings and pelletizing systems to meet the constantly evolving needs of the polymer industry.

## Nordson XALOY

Nordson offers a variety of adhesive systems to suit your Nordson XALOY is one of the world's leading manufacturers of components and melt delivery systems for injection and extrusion machinery. We offer highest quality in barrels, high performance screws, preassembled plasticating systems, heat transfer rolls, melt pumps, screen changers, pelletizers, and cleaning ovens.

## Industrial Printing Solutions

SE-TECH is the authorised distributor for DOMINO in SAUDI ARABIA.

Domino is one of the esteemed brand in the field of coding and printing with continual development that meet the needs of manufacturers and sets new industry standards in quality and reliability. Domino's commitment to world-class excellence in the manufacturing and distribution of coding and printing solutions has earned recognition from the government and industry bodies which include:

- Queen's Award for Continuous Achievement in International Trade
- East of England Business Awards
- FTSE4 Good Index September 2009
- Environmental Awards 2007
- Manufacturing Excellence Awards 2005 Accreditations
- Domino's commitment to quality is reflected by the ISO 9000 series of quality assurance accredited
- Domino Group Company has also achieved ISO9001

## SpillTech Smart Spill Solutions

Spilltech offers a wide range of absorbents and containment products for industrial maintenance and spill cleanup.

- Provides exemplary service and state-of-the-art products that improve workplace conditions, keeping workers safe and making jobs easier
- Spilltech will always be on the forefront of product design

## Industrial Maintenance Cleaners

UK's leading manufacturers of cleaning, maintenance and hygiene products for the private and public sectors.

- Gard offers solution to all your adhesive cleaning problems
- Holds 100% vendor rating for the quality, environmental impact, health & safety and security of products as well as the technical support

### Smart Solutions for Hanging

HangOn has a global presence with representation in over 40 countries and are continuously developing their operations internationally. To offer the best logistics possible in this region, GAEP FZE has become a distribution hub in the UAE for the Middle East.

### Ideal-Line Finishing Solutions

Industrial finishing systems have been Ideal-Line's expertise for more than 60 years. Ideal-Line offers quality lines to the surface treatment industry worldwide. Ideal-Line also sells finishing systems for powder coating, e-coat and also liquid paint.

Coating Innovations for Electronics

### Peters Coating Solutions

Peters Group is a global leader in the field of electronics-related high-tech coatings for automotive electronics, aerospace engineering, industrial electronics, medical technology, LED applications and other industries.

### Industrial Fire Protecting Systems

STS is a well-known internationally active machine and plant manufacturer as well as partner for special solutions such as flame detectors and smoke detectors among others.

### WITTE Pumps & Technology

WITTE Pumps & Technology GmbH stands for efficient and extraordinary pump solutions and has been one of the leading pump manufacturers in the field of precision gear pumps.
